**Option A:** Shop price to mount 110-volt 4-gang GFCI electrical receptacles (outlets) high on inside sidewall of canopy body near back doors. Receptacles to be flush-mounted high on wall if possible to avoid being damaged by equipment sliding in and out of truck. Show price to install power inverter in cab or utility body to handle a minimum of 2,500 watts of current for portable utility floodlights.

**Option B:** Show price to mount left/right directional traffic control safety light on back of canopy utility body above rear doors - do not mount on top of roof. Directional light shall meet specifications of TRAFFIC MASTER Model #ETTMLED-P 8-lamp directional LED from SOUND OFF, INC. 5132 37th Ave. / P.O. Box 206 / Hudsonville, MI 49426 1-800-338-7337 or equal.

**Option C:** Show price to mount pipe rack on top of canopy. Rack to be full width of canopy top with capability to fasten pipe with hold-down straps.

**Option D:** Show price to install pullout tray on curbside front door of utility body, capable of supporting a portable generator 26" square. Weight approx. 200 lbs. (Do not provide generator.)

**Option E:** Turbo Diesel with appropriate automatic heavy-duty transmission.
